

Practice table of 12 by solving the following questions

$12 \times 11 = 132$

$12 \times 16 = \underline{\quad}$

$12 \times 2 = \underline{\quad}$

$12 \times 19 = \underline{\quad}$

$12 \times 15 = \underline{\quad}$

$12 \times 6 = \underline{\quad}$

$12 \times 6 = \underline{\quad}$

$12 \times 3 = \underline{\quad}$

$12 \times 9 = \underline{\quad}$

$12 \times 10 = \underline{\quad}$

$12 \times 10 = \underline{\quad}$

$12 \times 9 = \underline{\quad}$

$12 \times 1 = \underline{\quad}$

$12 \times 20 = \underline{\quad}$

$12 \times 12 = \underline{\quad}$

$12 \times 13 = \underline{\quad}$

x	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
